

ENERGY EFFICIENCY INCENTIVES FOR RESIDENTIAL BUILDERS & DEVELOPERS

If you are developing or building a new home in Colwood, you can access incentives for energy efficient technologies and techniques.

Utility Incentives for Builders and Developers

- \$2000+ from BC Hydro Power Smart New Homes Program for reaching EnerGuide 80 for single family homes, with an additional \$200 if you are installing ENERGY STAR® qualified appliances. Incentives for townhomes also available.
- \$2000+ from FortisBC PowerSense New Homes Program (for FortisBC gas customers)

Water Heating:

- \$200 for a gas fired storage tank with an EF of 0.67 or higher
- \$400 for a gas fired non-condensing tankless system
- \$500 for a gas fired condensing tankless or hybrid system
- \$1000 for a gas fired condensing storage tank

Space Heating

- \$1000 for a gas fired condensing boiler 94% or better
- \$300 for an EnerChoice gas fireplace

Incentives for Homebuyers

- 10% CMHC Mortgage Loan Insurance Rebate
- 33% off incentive from Solar Colwood for Solar Hot Water systems when installed after occupancy

Please consult the website of each incentive program sponsor for complete eligibility information and timelines.

Programs may change at any time. This document was created on September 5, 2013.

Solar Colwood aims to have 1000 Colwood residents and businesses take energy saving actions at home, at work and on the road.

This project is made possible, in part, through an investment from the Government of Canada's Clean Energy Fund.

To learn more about energy saving options and how to access incentives, visit www.solarcolwood.ca or contact us at 250.216.7527 or info@solarcolwood.ca.
