## *We've got help!*

*Colwood Rotary* has graciously offered to help with our fundraising efforts to get the project started.

The City has engaged *LifeCycles* to help with design and implementation of the garden.

Lifecycles is non-profit organization that will help our community gain the knowledge, skills and resources we need to grow food in a way that fosters biodiversity and enhances our urban environment. They'll help us cultivate community health by connecting our community to the food we eat and the land it comes from. Learn more at [lifecyclesproject.ca](http://lifecyclesproject.ca).
