

## We love to hear from you

We welcome your thoughts about this project and all that is going on in our community.

**Phone:** 250-478-5999

**Email:** [info@colwood.ca](mailto:info@colwood.ca)

**Click:** [www.Colwood.ca](http://www.Colwood.ca) (Feedback form at the bottom of any page.)

**Visit:** Colwood City Hall  
3300 Wishart Road  
Colwood, BC V9C 1R1  
Monday - Friday 8:30 am to 4:30 pm

**Project Lead:** Emmet McCusker, Deputy Engineer

## Connect with Colwood

**Subscribe:** We encourage you to subscribe for email updates about City news and events at [www.colwood.ca/subscribe](http://www.colwood.ca/subscribe).

**Follow:** Colwood is also on facebook and twitter. Be the first to know by following us @CityofColwood.

**Keeping you informed and involved:** We are working hard to share information about decisions that affect you, and to provide ways for you to provide input and see it reflected in plans. Connect with Colwood!

## Creating the 'Metchosin Greenway'

### Planning safe & enjoyable travel routes

One of the first projects coming from Colwood's Transportation Plan includes new sidewalks and bike lanes along Kelly Road, as well as a Metchosin Greenway that will make it safe and enjoyable to walk or cycle from the Galloping Goose trail, along Adye Road and across Kelly to Metchosin Road.

### What to expect

The first step is to talk to neighbours like you and consider your input in the design of the greenway. We have developed this artist's rendering as a basis for discussion

Preliminary concepts include a landscaped pathway and a public space where Adye Road meets Kelly to reduce vehicle traffic. This would mean closing the entrance to Adye Road at Kelly to vehicle traffic. Vehicles would access Adye Road via Mt. View Avenue or Pickford Road. The traffic light at Mt. View and Sooke Road would be upgraded to a full vehicle activated signal to ease traffic flow.

New wayfinding signs along the route and improvements to the Sooke and Metchosin Road intersection are also part of the plan.

### Learn more and provide input

A public meeting will be scheduled in the near future (see back to subscribe for email notification). Preliminary work could start as early as September 2014, but the project has several design phases where residents can provide input and plans can be modified.

## We love to hear from you

We welcome your thoughts about these plans. See reverse for contact information.

## Artist's Concept of Adye Green: intersection of Adye and Kelly Roads

This image is intended to give a preliminary sense of how the intersection of Adye Road and Kelly Road could look with the addition of bike lanes, cross walks and a small public green space.

## Concept Sketch of the proposed Kelly Road "Complete Street Project"

Installation of sidewalks, bike lanes, transit improvements, boulevards, medians and landscaping will beautify the area and make it easier to walk, cycle and use transit in this central area of the City.
